Worldwide Investment Fund Assets and Flows

Trends in the Third Quarter 2011

Brussels, 12 January 2012. Investment fund assets worldwide declined by 4.7 percent in the third quarter to stand at €18.58 trillion at end September 2011. Worldwide net cash flows turned negative for only the second time since the onset of the financial crisis in the third quarter of 2008, to register net outflows of €104 billion, compared to net inflows of €147 billion in the second quarter. Long-term funds suffered net cash withdrawals in the third quarter of €58 billion, a significant turnaround compared to the net inflows of €206 billion recorded in the previous quarter. Equity funds registered net withdrawals in the third quarter of €79 billion, compared to net inflows of €16 billion in the previous quarter. Bond funds bucked the trend to record net cash inflows during the quarter of €8 billion, albeit down from net inflows of €70 billion in the second quarter. Moneymarket funds continued to experience negative net cash flows for the tenth consecutive quarter, registering net outflows of €44 billion, compared to €59 billion witnessed during the second quarter of 2011.

The information presented in this report was compiled by EFAMA and the Investment Company Institute on behalf of the International Investment Funds Association, an organization of national investment fund associations. The collection for the third quarter of 2011 contains statistics from 45 countries.

Worldwide Investment Fund Assets (*)
